**Photoluminescent Exit Signs**

**Features**

- ETL Listed & meets UL924, NFPA 101 Life Safety Code, NFPA 1(UFC) AND NFPA 5000, IBC AND IFC, Local Building and State Codes
- Maximum reliability and effectiveness
- Warranted for 25 years, interior installations
- Contains no radioactive or toxic components
- Aluminum signs and frames. Minimum 60% post consumer recycled content
- Mounting bracket suitable for left or right wall and ceiling mounting (See Mounting Option B)
- Frame suitable for one or two side signs
- Can be used with or without frames and mounting brackets (See ordering options for faces only)
- Available in red, green and black background with glow letters
- Visible and legible from 75 feet
- Directional chevrons and stainless steel fasteners included

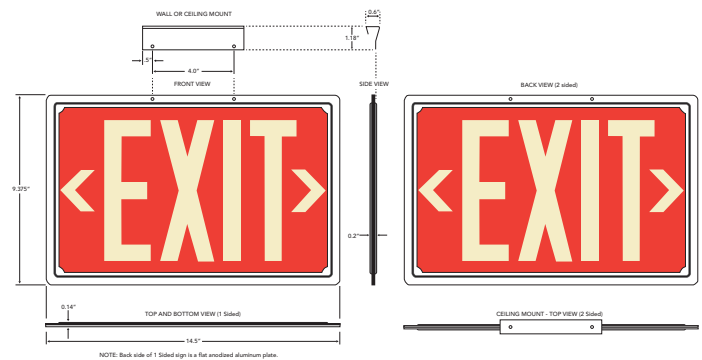

**Illumination**

- Photoluminescent Exit Signs should be used in well-lit areas
- Photoluminescent letters and chevrons work by having a fixture illuminated at a minimum of 5 foot candles from the exit sign.
- When the lights go out, the exit sign will glow in the dark with visibility from 75 feet away.
